

The Scalable Enterprise

Enterprise Servers for Open Source

Customer Service

iXsystems' primary focus is customer satisfaction. When you purchase from iXsystems you have entered into a partnership with our staff as well as our products. We want you to have peace of mind with your purchase decision. iXsystems offers a 3 year limited warranty on parts and labor for all our integrated systems.

Company History

iXsystems has a long history of excellence and expertise in the server industry, tracing its roots back to the early days of BSDi. Our infrastructure has been in place since 1996, when the current headquarters in San Jose was originally established. Over the past 10 years we have perfected our processes and streamlined our operations, resulting in one of the most efficient manufacturing facilities in the server industry.

Why buy from iXsystems?

Quality, Reliability, Ease of Use

iXsystems has a streamlined focus on quality and reliability. We have incorporated an extensive quality control procedure into our production processes to ensure the highest quality systems and servers. We also strive for the greatest possible ease of use in all our products. Our server and storage management solutions feature full remote server management via a web-based management utility that can easily be accessed from any browser.

Comprehensive Product Line

iXsystems has a complete line of world-class servers to meet virtually any IT need. We have a multitude of form factors and a variety of configurations, enabling you to deploy in virtually any environment. We also offer tower servers, rack-optimized servers, and ultra-dense blade servers depending on your company's application needs. A consultation with one of our experienced sales staff members will help you determine the right configuration for your specific needs.

Technology Partners

As an Intel Premier Partner and AMD Gold Partner, iXsystems has access to priority training and technical support from both Intel and AMD. Our detailed knowledge of Intel and AMD technology platforms and product functionality allows deployment of integrated technology solutions that deliver value and performance. We also have partnerships with a variety of other technological innovators such as Novell, RedHat, Cisco, Netgear, Cyclades, and Wasabi Systems, ensuring our access to the latest technology platforms and products.

Management Team

iXsystems' management team is comprised of seasoned executives from the IT industry. Furthermore, most of our staff have an extensive background in server manufacturing and software configuration. You can rest assured that the iXsystems team has the knowledge and experience you need to guide you through every step of the purchase and deployment processes.
